

Coppice View
DENTAL CARE

Outstanding patient care

We are a small, friendly team based in the beautiful spa town of Harrogate. We offer everything from routine dental care to more complex treatments – and for that reason, we count many local families among our patients. This guide will tell you a little more about Coppice View. However, if you have any queries or would like more details, our team members would be more than happy to help. You will find our contact details and opening hours on the back page, just get in touch.

.....it's all about you

Visiting us

When you first come to Coppice View, you will meet our friendly team and get the chance to ask any questions you have. Our practice on Kings Road has a ground-floor surgery with disabled access and there is a large car park at the front of the building, making your visits to us as straightforward as possible.

Your first appointment with the dentist will be a consultation, when we will find out about any problems you are experiencing and any concerns you have about your teeth and mouth. Following a complete examination, we will work with you to create a treatment plan tailored to your needs.

We will offer you payment options, including our practice plans with Denplan, for your routine care and any additional treatment needed.

Our practice systems are fully digital, with X-rays & imaging services to enable our dentists to accurately diagnose any problems & offer the most appropriate treatment.

We are able to create crowns and fillings while you wait, avoiding the need for multiple appointments by completing treatment on the same day.

We also offer facial aesthetic treatments and anti-wrinkle treatments, to help patients keep looking as young as they feel.

If you have any queries or would like to know which of our treatments could benefit you, we would be pleased to explain more. Simply contact the practice and we will arrange for a member of our team to talk you through the options

Amy Hardisty, DipDHT

Dental Therapist
GDC No. 137191

Qualified from Leeds university in 2013 after having founded a real passion for dentistry during my 8 years assisting dentists, as a nurse. My background has allowed me to establish both the knowledge and techniques required to provide dental hygiene treatments and deliver advice in a manner each patient feels most comfortable. I pride myself in always holding patient experience a priority in my approach to improving patients oral health.

In my spare time I am kept very busy with my two young children and sharing in all the joy of their new experiences.

Lisa Highley, DipDH

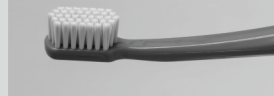

Dental Hygienist

GDC No. 5680

I take great pride in my role as a valued member of the Coppice View Dental team. With over nine years of experience as a dental nurse, I embarked on a journey of professional growth, culminating in my qualification as a Dental Hygienist from Bristol University in 2000.

My approach to dentistry is characterised by a blend of expertise and empathy. Embracing a holistic perspective, I prioritise patient well-being and strive to foster a relaxed atmosphere conducive to optimal dental care. I am deeply committed to patient education, believing that informed individuals are empowered to achieve and maintain their best oral health.

I am dedicated to providing personalised care tailored to each patient's unique needs and aspirations. It is my privilege to contribute to the health and happiness of our patients, and I am steadfast in my pursuit of excellence in dental care.

hygienist

Craig Parker BChD, MFGDP(UK), DPD.

Dental Implant Surgeon

GDC No. 64958

Craig is well-known and enormously respected by peers and patients alike in the world of implant dentistry, of which he has been totally dedicated to for the last 15 years.

Originally from London, he qualified at Leeds Dental Institute in 1989. He has studied with some of the most influential experts in the field, including the Masters Course in Aesthetic Implant Dentistry with Professor Buser at the University of Bern in Switzerland.

He now teaches and lectures extensively, nationally and internationally in all aspects of dental implantology, in particular digital treatment planning and computer assisted surgery. This approach enables dental implants to be provided with the highest degree of precision, delivering treatment with predictable success for patients.

He was on the National board of the Royal College of Surgeons (FGDP(UK)) for three years and was an examiner at the RCS for ten years. Craig served on the board of the Association of Dental Implantology for 8 years and was president from 2015 to 2017. In May 2019 he was one of only very few individuals ever to be awarded honorary life membership of the ADI.

Outside work he spends most of his time with family, especially his two boys, Oscar and Charlie. He is a climber and loves, travel, music, film, languages and cooking.
